Introduction

The BC Vegetable Marketing Commission (the “Commission”) is a marketing commission established pursuant to section 12 of the *Natural Products Marketing (BC) Act* (the “Act”) and continued pursuant to section 3 of the *British Columbia Vegetable Scheme* (the “Scheme”). This document provides the reader with information on the Commission’s electoral model and the established rules and procedures for conducting an election.

Review of Election and Merit-Based Selection Rules and Procedures

The British Columbia Farm Industry Review Board (the “Provincial Board”) is continued pursuant to section 3 of the Act. Its mandate includes the supervision of all marketing boards and commissions in British Columbia. Pursuant to section 3 of the Scheme, the Commission must establish and publish its rules and procedures for the election of its members. Section 3 of the Scheme also provides that these rules and procedures do not take effect until they have been approved by the Provincial Board. In accordance with its supervisory authority, the Provincial Board has directed that the Commission’s election and merit-based selection rules and procedures be reviewed every five years. During each review, the Commission consults with producers and other industry stakeholders on election policy and assesses the level of support for the current electoral model and any proposed amendments to the election and merit-based selection rules and procedures. On completion of the review, a report on the consultative process and a copy of the Commission’s proposed election and merit-based selection rules and procedures are submitted to the Provincial Board for its prior approval. Once approved by the Provincial Board, the election and merit-based selection rules and procedures are used by the Commission for conducting all elections, and for selecting independent members, over the course of the next five years.

The Commission will also review its election and merit-based selection rules and procedures upon the passing of a motion requesting a review at the Annual General Meeting (AGM).

The Commission’s election and merit-based selection rules and procedures are published on the Commission’s web site (www.bcveg.com) under *Policies & Decisions*, and they are provided to industry stakeholders and to the public on request.

Composition of the Commission

In accordance with the Scheme, the Commission consists of a Chair and up to eight (8) members. The Chair is appointed by the Lieutenant Governor in Council. Four (4) to six (6) members are licensed commercial vegetable producers elected by licensed commercial vegetable producers. Two (2) independent members are appointed by the Commission using a merit-based selection process approved by the Provincial board.

Electoral Model and Frequency of Elections

Elected member representation categories are Greenhouse Crops and Storage Crops. Licensed commercial vegetable producer members are elected based on representation category. Elections are to be held for six (6) positions: three (3) Greenhouse Crop members and three (3) Storage Crop members. Terms are to be staggered so that two (2) positions with no more than one (1) position in the same category is up for election in the same year. In an election year, the Commission is to establish an Election Schedule and appoint a Staff Election Officer (SEO) and an Independent Elections Officer (IEO). The Independent Election Officer (IEO) is responsible to oversee the election schedule and procedures, and to certify election results.

Merit-Based Selection Process

The merit-based selection process is applied to administer the selection of independent members by the Commission. The Governance Committee is responsible to establish an Appointment Schedule and manage the process. Key competencies that provide the skill set / knowledge base required by the Commission are to be identified by the Committee. A Notice of Position (NOP) document is to be developed and will include information regarding the terms of reference and skill matrix. The NOP is to be advertised for a minimum of 15 working days and two weekends, with the deadline for submissions being one week prior to interviews. Candidates will be assessed against the terms of reference and skill matrix.

Elements of the candidate appointment process:

- i. The Governance Committee and the Commission Chair meet to assess applicants against the NOP and determine shortlisted candidates to be interviewed.

- ii. A conflict of interest disclosure form is completed by shortlisted candidates and reviewed by the Governance Committee and the Commission Chair prior to conducting interviews.
- iii. Interviews are conducted by the Governance Committee.
- iv. Interviews are conducted by the Commission Chair, who will check references.
- v. The Commission Chair reports to the Governance Committee on interview assessments and reference checks.
- vi. After consulting with the Commission Chair, the Governance Committee develops a recommendation and ranking on independent member candidates.
- vii. A shortlist of candidates (being a minimum of one more than the number of positions being appointed), together with a recommendation on the preferred choice, are provided by the Governance Committee to the Commission for consideration.
- viii. The Commission may accept, amend, or remit back for reconsideration, the recommendations made by the governance committee.
- ix. The Commission issues a decision on the appointment(s).

Term of Office

The term of office of each elected member and appointed independent member is three (3) years. A term commences on May 1st and concludes on April 30th. There is no limit to the number of terms that a Commission member may serve.

Terms of Office for 2022 and 2023 Transition Years

To transition member terms of office from two (2) years to three (3) years, and to allow vacant member positions to have an opportunity to be filled as soon as possible, the following will be applied on approval of these election and merit-based selection rules and procedures:

1. The new electoral model replaces the Greenhouse Tomato category that remained vacant on completion of the 2022 election with a Greenhouse Crop category. A special election will be held to fill this member position.
2. The electoral model replaces the Processing Crop category with a Storage Crop position.
3. A two (2) year term is applied to one (1) of two (2) Storage Crop category member positions that are scheduled for election in 2023. Shortening this term by one (1) year aligns the election cycle so that two (2) positions with no more than one (1) position in the same category will be up for election in the same year.
4. One independent member is to be appointed to a three (3) year term. One independent member is to be appointed to a two (2) year term. This will allow a minimum of one-year overlap between the two (2) independent members.
